About MGM

Dr. V.D. Patil

- Mahatma Gandhi Mission (MGM) Trust has been established in 1982 at Nanded (Maharashtra) and working in India for more than three and half decades. It is proliferating its wings with its colleges and centres at Nanded, Aurangabad, Navi Mumbai and Parbhani in Maharashtra State and at Noida in Uttar Pradesh (Delhi NCR). The aims and objectives of the trust are to contribute towards fulfillment of the task initiated by Mahatma Gandhi and based on his principle that, "Literacy is of no value if it is not able to build up sound character".
- MGM Hills Gandheli sub campus endowed with nature currently comprises Nanasaheb Kadam College of Agriculture, College of Agricultural Biotechnology, College of Food Technology and Krishi Vigyan Kendra. The MGM Gandheli campus has graduate programme in Agriculture,

Food technology and Bio technology as per the Vth Dean committee syllabus of Indian Council of Agricultural Research. All colleges are affiliated to VNMKV Parbhani and accredited with 'A' grade. Here, at MGM Gandheli campus we provide a wealth of learning experience through the experienced faculty, well equipped laboratories and infrastructure facilities. MGM believes in imparting the best education which is evident through the students' achievements, as they are employed in the best of the organizations all over the world.

- As you go through this brochure, you will appreciate that truly, it is a institution of difference. This publication of placement brochure will give glimpses of its strength. Hence, I invite your esteemed organization to MGM Hills, Gandheli and give opportunity to my students to serve your organization.

Director of Education

MGM Nanasaheb Kadam College of Agriculture (NKCA), Gandheli

The MGM's NKCA offers four years graduate program in B.Sc.(Agri) / B.Sc.(Hons). Agril., with intake of 120 student per year. The College is equipped with well-furnished lecture halls, seminar halls, library, computer lab, students counseling and placement cell, hostels and sports facilities. College possesses ten laboratories with state of art equipment and instruments. The special feature of the graduate course is Rural Agriculture Work Experience and Experiential Learning Programme in which students are placed in rural areas and exposed to farm level problems and their solutions on field itself. There by the students acquire skills and practical knowledge. The college has well trained faculty consisting of 24 Assistant professors. The college has 40 hectare of farm with moderately equipped irrigation facilities, farm machinery, implements and other infrastructure amenities like poly house, shade-net. Nanasaheb Kadam College of Agriculture has been awarded ISO 9001 : 2015 Certificate in the year 2015-16 and "A" Grade accredited and affiliated college of Vasantrao Naik Marathwada Krishi Vidyapeeth, Parbhani (M.S.). So please consider our organization while recruiting the human resources in. We are sure if given opportunity, our students can serve your organization better by putting their best.

MGM College of Agricultural Biotechnology

MGM's College of Agricultural Biotechnology strives hard to give the updated knowledge to the students by appointing trained faculties, providing well equipped laboratories, quality teaching facilities and inviting well known personalities in the field of Agricultural Biotechnology. Biotechnology convert bio-resources into economic wealth by protecting bio-resources, environment, human health and animal health. Infusion of new technology is necessary to maintain our agricultural enterprises' competitive and remunerative aspect

and hence this institute works in association with its allied faculties like Agriculture and Food technology at Gandheli campus. Our students are exposed to most of the biotechnological tools which helps in augmenting the yield and quality of produce. Students are involved in courses emphasizing hands on training in various aspects of biotechnology. They are ready to become social volunteers and able to give their best. With this motives MGM biotechnology welcomes you to the campus for placement.

MGM College of Food Technology, Gandheli

MGM's College of food technology is a college of difference. Its faculty pursue in-depth teaching, experiential learning program and in-plant training in the areas of "Food technology and Empowering the art of food preservation".

The present scenario of food processing in the country is rising with capital investment and expanded in urban areas. However MGM's college of Food technology aimed to work in the remote villages so as to transform and upgrade the socio-economic status of rural families by the way of establishing the processing units. The institute intends to act as a center of excellence in areas of food technology education in Maharashtra and India.

We have a hi-tech laboratory and fruits and vegetable processing pilot plant. Hands-on-training on different food processing technologies, renting facilities and other supports are offered throughout the year to help the students to put in their innovative ideas for the development of new products.

Various subjects such as Food production, Preservation, Quality assurance, Packaging, Food laws and New product development are taught with the help of well trained faculties and well equipped laboratories. College also ensures to give students wider vision in Food technology by organizing visits of students to food product manufacturing units. With this background we welcome your esteemed organization for campus placement of our students to harvest mutual benefits.

Sports and Allied Facilities

Facilities for sports like Kabaddi, Kho - Kho, volleyball, badminton, basket ball etc. are provided for student. Besides sports, student also get ample opportunities to work in National Service Scheme and curricular activities include, cultural programme. Study tours are taken to expose the students for better understanding of work going on in the various reputed institution of India.

Placement Procedure

MGM Hills invites prospective employers to intimate their resource requirements to the following. The MGM Hills authority there upon sends bio-data of interested graduates to them. A mutually agreeable date for holding interview at MGM Hills campus or employers head quarters is fixed and the candidates are directed accordingly. For the interviews held at MGM Hills Gandheli, MGM provides accommodation, food and local transports to the experts. The arrangements for written test, group discussion and personal interview will be made by the MGM Hills authority through Training and Placement Cell located at Gandheli.
